	Streets General Formula 209
	Streets Multispot
	Streets Pyratex
	Streets Sofspot
	Streets Staticol (Detergent)
	Streets Streepro
	Streets Streetan
Streets Streetex	

This information is provided to help representatives from the Hazardous Waste Management Program and the Washington State Department of Ecology inform shop owners as they transition from perchloroethylene (PERC) dry cleaning to safer alternatives.

Products are spot cleaners unless otherwise noted in parentheses. Detergents and all other products would not necessarily be found on the spotting table – they will be either attached to the machine via a metering system or added manually.

본 정보는 Hazardous Waste Management Program 및 Washington State Department of Ecology 의 직원들이 가게 주인들이 퍼클로로에틸렌 (PERC) 세탁에서 더 안전한 대체물로 전환하는 데 있어 정보 제공에 도움이 되도록 제공되는 정보입니다.

괄호에 기재되어 있지 않은 제품들은 얼룩물 세제입니다. 세제들 및 모든 기타 제품들이 꼭 스폿팅 테이블에 기재되어 있지 않을 수도 있습니다. 계량 체계를 통해 기기에 첨부되었거나 수동적으로 추가되어 있을 것입니다.
